**It is with pleasure that I recommend Rob Hawkins and his group of trainers at Worldwide K9 in Boerne, Texas. My police department interviewed several other trainers and facilities before choosing to work with Mr. Hawkins in 2020, and he has far exceeded our expectations and his responsibilities.**

**Despite some very trying circumstances caused by our department, Mr. Hawkins and his staff remained very professional and committed to provide us with the very best canine for our department. Mr. Hawkins has always gone above and beyond to ensure a great customer experience and that our canine training continues to evolve.**

**Mr Hawkins provides his customers highly trained canines. He also ensures every officer who goes through a training program at Worldwide K9 receives intense training in the fields of canine handling, officer safety, maintenance training, and record-keeping, case laws, and proper canine care.**

**Since our initial canine training, I have attended the three-day seminar/recertification workshop offered by Mr Hawkins each year, during which, canine handlers are trained on real-life scenarios that they have each encountered in the field and helps with any training questions they might have.**

**Please feel free to contact me if you have any questions,**

**Maria Scott**
